Integrated 3D Infrastructure Modeling

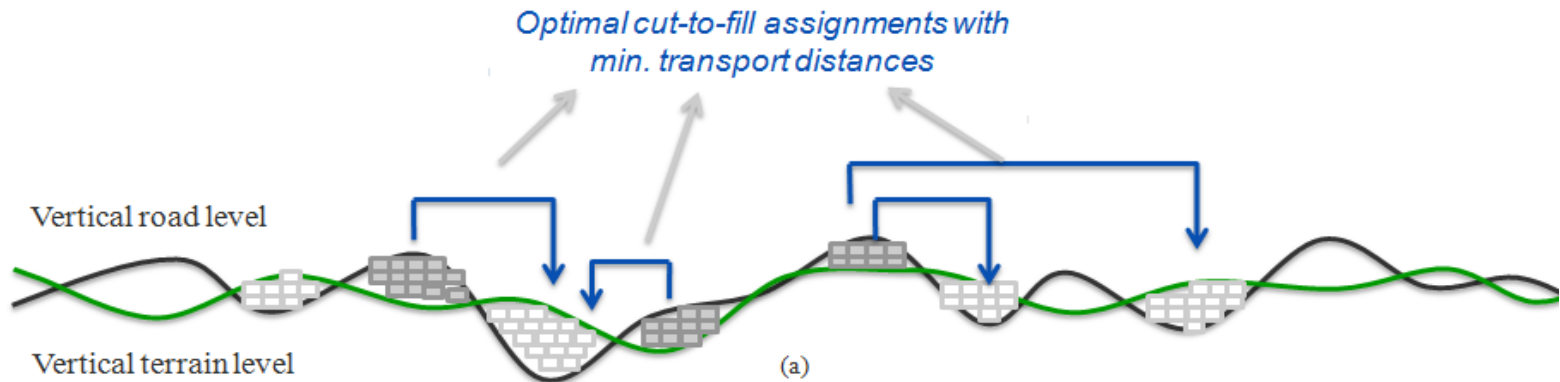

ForBAU Integrator

ForBAU Integrator - Demonstration

Earthwork Optimization

$$\min \sum_{(i,j) \in E} c_{ij} x_{ij} \quad (1)$$

$$\sum_{(i,j) \in E} x_{ij} = X_i \quad \text{for all } i \in U \quad (2)$$

$$\sum_{(i,j) \in E} x_{ij} = X_j \quad \text{for all } j \in V \quad (3)$$

$$x_{ij} \geq 0 \quad (4)$$

(c)

$j \backslash i$	1	2	3	4
1	x_{11}	0	0	0
2	x_{12}	x_{22}	0	0
3	0	0	x_{33}	0
4	0	0	x_{34}	0
5	0	0	x_{35}	x_{45}

Parametric Bridge Design

Road Design is coupled with Bridge Design

3D Road Alignment
Version 1

Design changes

Automatic update

3D Road Alignment
Version 2

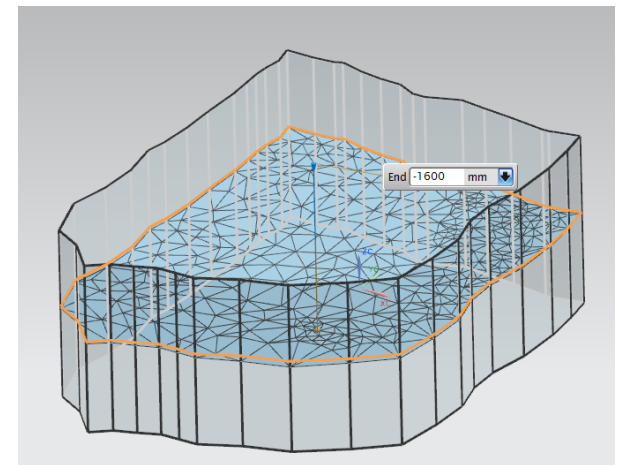

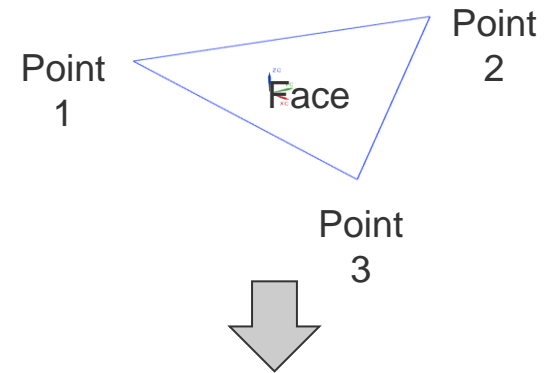

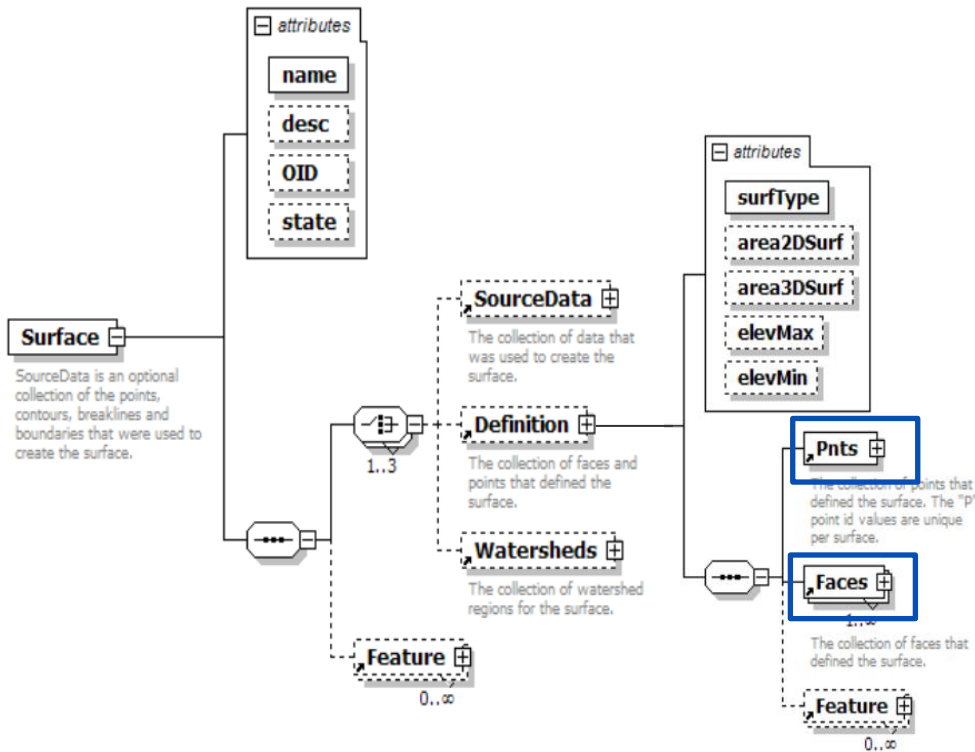

Multi-scale Integrated Infrastructural Planning

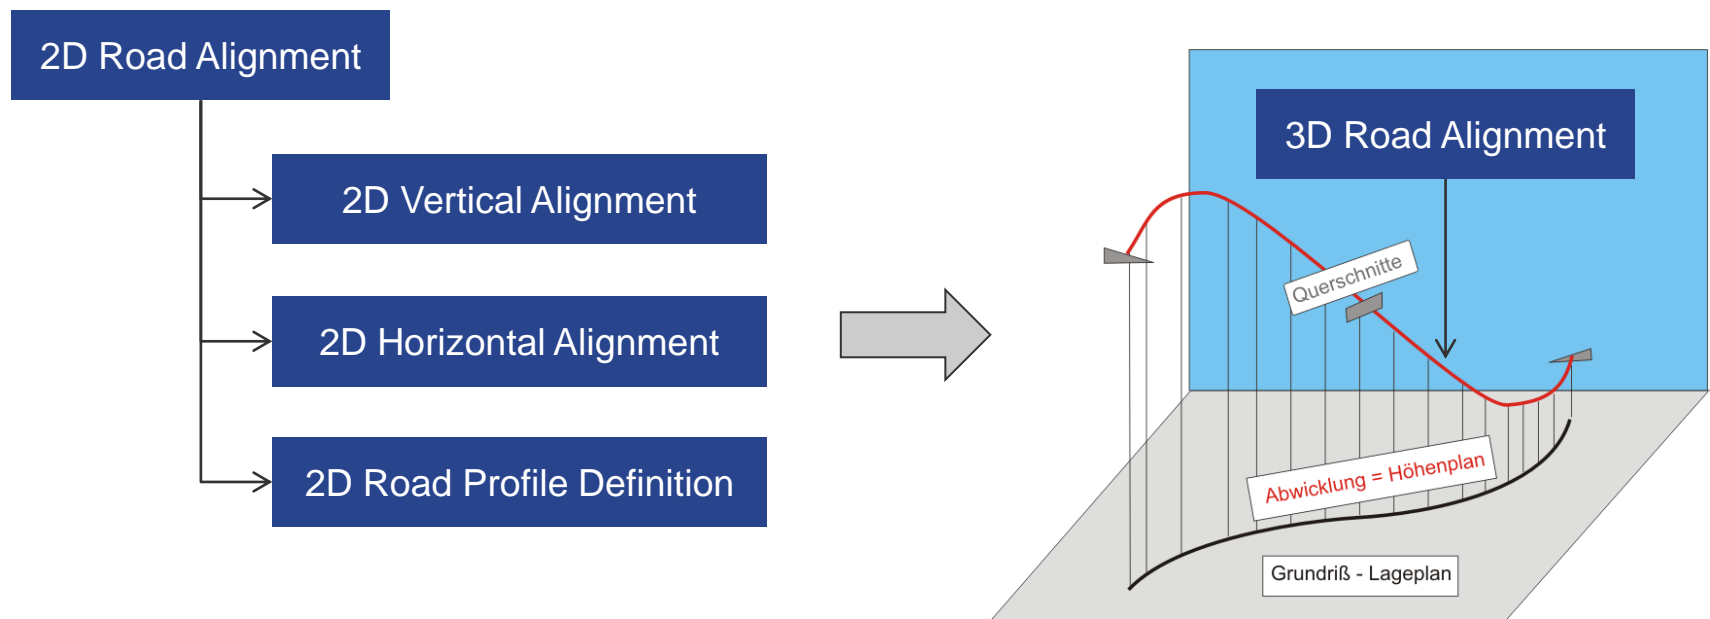

Experience with LandXML – 3D Geometric Representation

3D Terrain Model

3D Subsoil Model

Experience with LandXML – 3D Geometric Representation

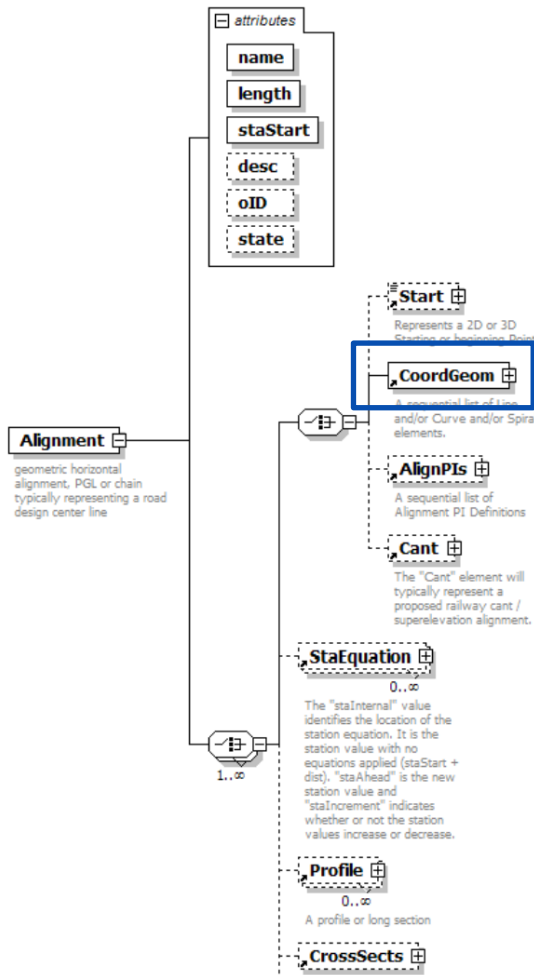

3D road alignment geometry **implicitly** represented
by 2D alignment designs

2D Horizontal Alignment

X-Y-Plane

S_n : length of curve

Horizontal Alignment

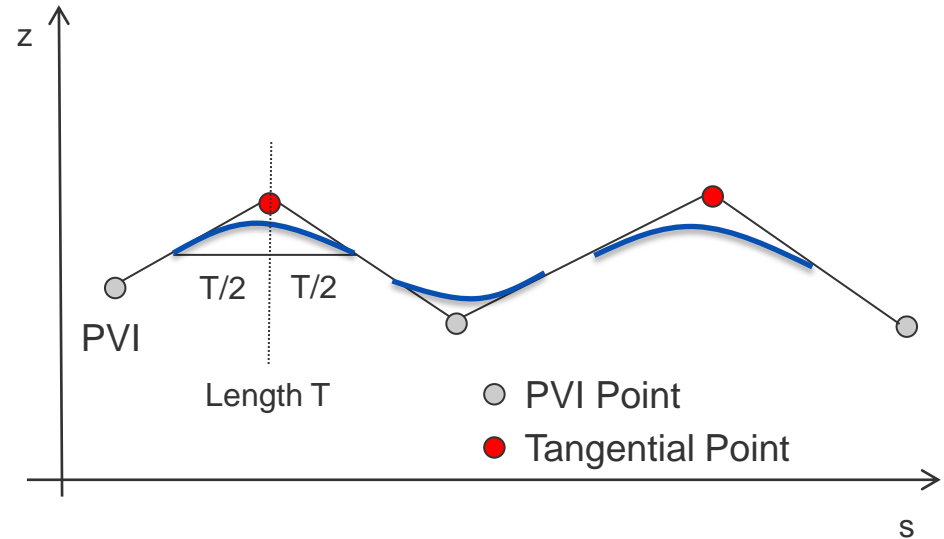

- Circle
- length
 - rotation
 - start- and end point
 - center
 - radius

- Transition curve (Clothoide)
- length
 - start- and end point
 - rotation
 - start radius and end radius

- Line
- start point
 - end point
 - length

2D Vertical Alignment

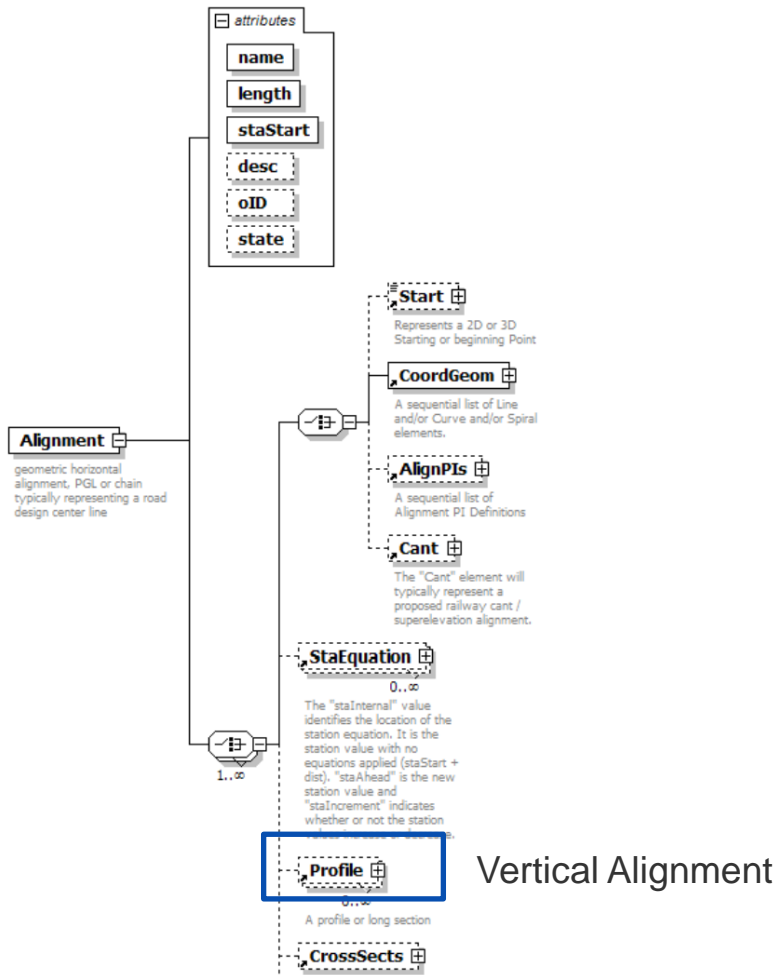

S-Z-Plane

S : abscissa of horizontal alignment

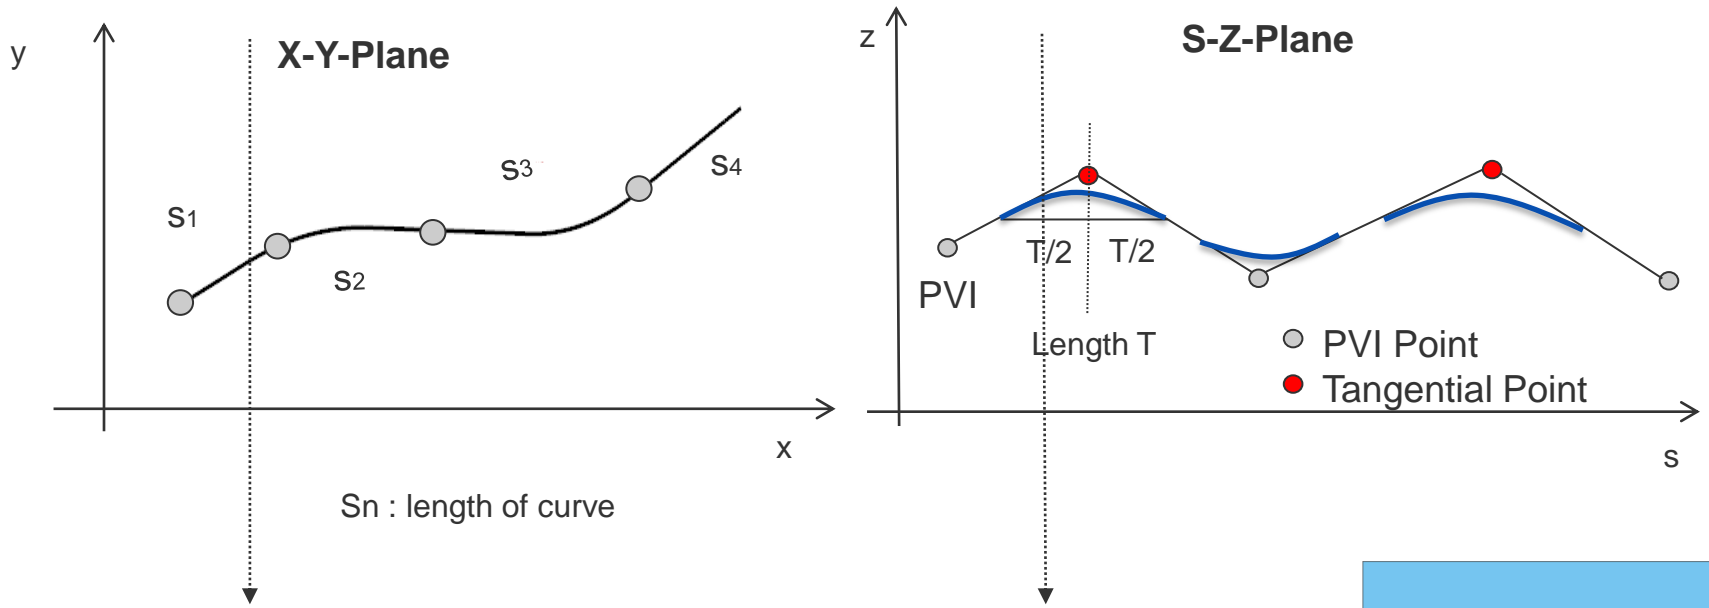

- PVI point
- *Abscissa s*
 - *Superelevation*

- Parabolic curve
- *Tangential point*
 - *Length*

Vertical Alignment

3D Road Alignment

S_n : length of curve

3D coordinate of road alignment points

3D Road Solid Model

2D Road Profile Definition

- No standardized profile definition available
- different implementations by software provider

2D road profile definition

road solid model

road cross sections placed along 3D alignment

Examples of different cross section definitions

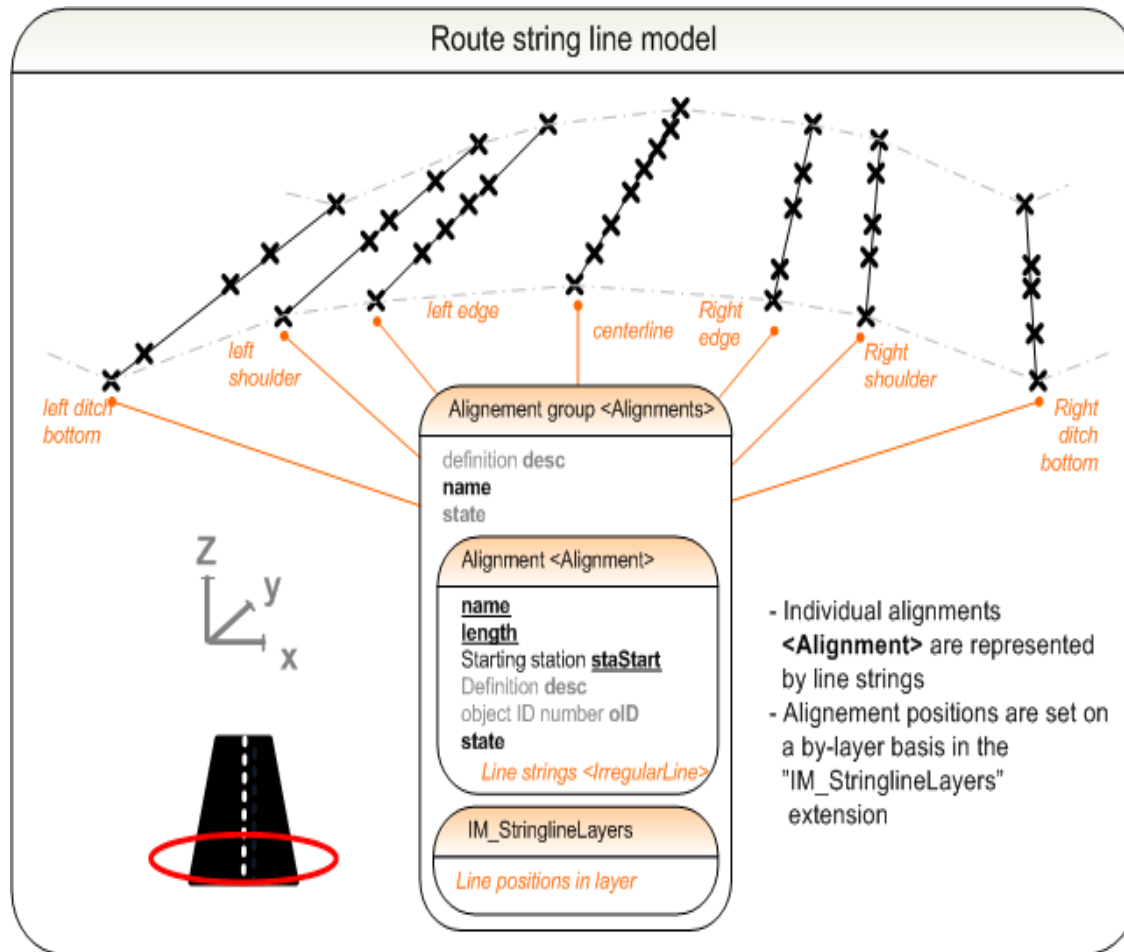

AutoCAD Civil3D

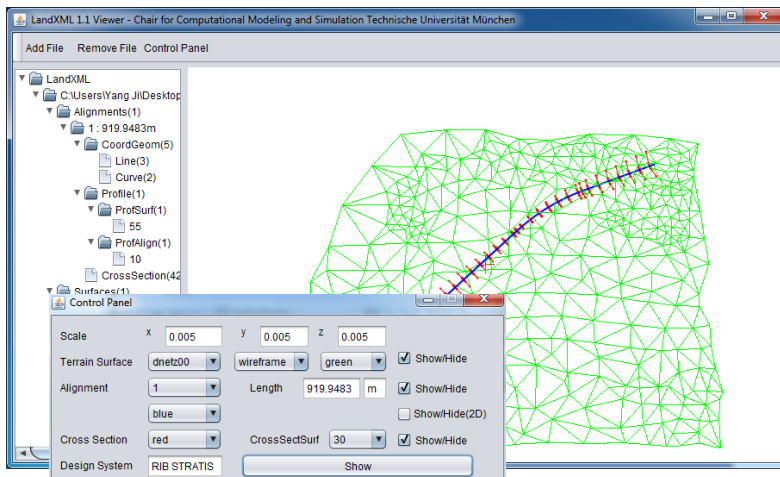

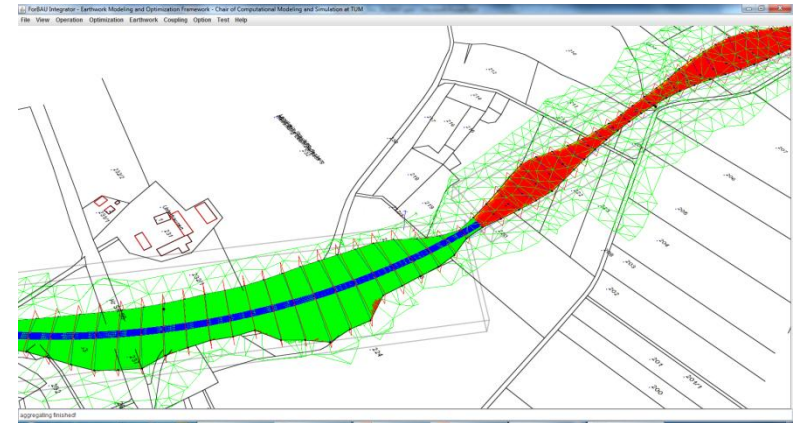

RIB STRATIS / AKG VESTRA

Extension of VTT Finland

LandXML software tools developed CMS

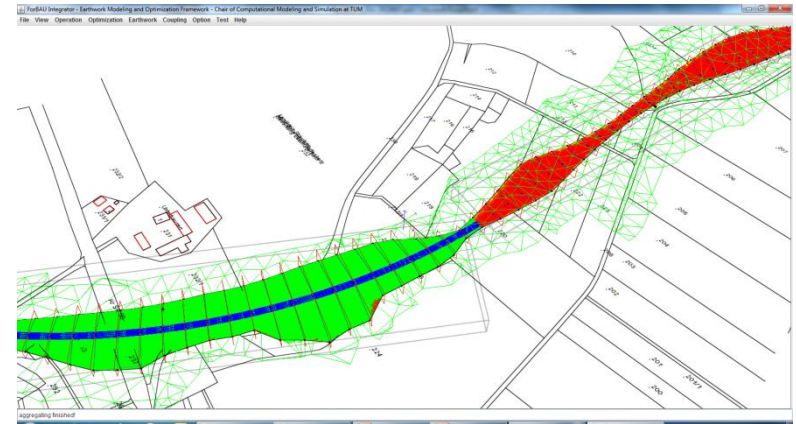

- ForBAU Integrator for Earthwork Optimization and Simulation
- LandXML Interface for Siemens NX for 3D Bridge Design (in commercializing)
- TUM LandXML Viewer

Summary and Outlook

- Knowhow of LandXML development
- Implementation of LandXML tools in Java, C# with Java3D, Siemens NX
- Cooperation with VTT Finland with Juha Hyvärinen for testing and visualizing extension of LandXML
- Research partner in openINFRA particularly for IFC-Bridge extension

Welcome to IFC-Bridge Workshop in Paris on 13th July!
