Norway**

Nordic openINFRA Workshop in Oslo focusing on LandXML

buildingSMART Nordic and buildingSMART Norway are pleased to announce an openINFRA Workshop in Oslo 7th June. The workshop is following up from the openINFRA Workshop held in Helsinki November 2011.

It is the mission for buildingSMART to contribute to sustainable built environment through SMARTER information sharing and communication using open international standards in the building and construction sector, private and public.

The workshop is focusing on LandXML as a neutral data format in infrastructural projects. LandXML may not be the final solution for sharing data in infrastructural projects, but buildingSMART Nordic and buildingSMART Norway are interested in getting feedback from representatives in the civil engineering industry if they support LandXML as an interim format for the coming years for sharing data in infrastructural projects.

Draft agenda

- 10:00 Introduction*
- 10:10 Keynote: Challenges for interoperability in openINFRA, CEO Jorulv Rangnes EPM systems*
- 10:45 Background for selecting LandXML as the preferred format for Infra in Finland, Leading Advisor Juha Liukas, Sito*
- 11:05 Proposed Finnish extensions to LandXML, Senior Scientist Juha Hyvärinen, VTT Finland*
- 11:30 Break*
- 11:45 Clients requiring LandXML – benefits, concerns, neutral*
- 12:05 Engineering companies delivering LandXML – reuse of data, legal aspect*
- 12:30 Lunch*
- 13:15 Contractors using LandXML – machine control, quantities and efficiency*
- 13:35 Software vendors supporting LandXML, Industry Sales Director Timo Tuukkanen Bentley Systems*
- 13:55 Equipment supporting LandXML for machine control and positioning, SITECH Norway AS*
- 14:15 Break*
- 14:30 Discussion*
- 15:45 Conclusion*
- 16:00 Closing*

We are looking forward to see you in Oslo in June. The workshop is sponsored by buildingSMART Norway, and we are therefor able to offer participation in the workshop free of charge for all interested.

Location and transportation: BuildingSMART Norge, Strandveien 18, Lysaker, 1326 Lysaker, Norway. If you arrive by plane it is most convenient to go by Airport Express Train (Flytoget) to Lysaker station in the direction of Drammen. More information at <http://www.standard.no/en/About-us/How-do-I-get-to/>

Please sign up for the workshop by signing up for the workshop at <http://www.buildingsmart.no/events/openinfra-workshop>

On behalf of buildingSMART Norway and buildingSMART Nordic
